U.S. Permanent Resident — Authorized to work in the U.S. without sponsorship

Education

Hofstra University

Bachelor of Science in Computer Science, GPA: 3.3

Expected May 2027

Hempstead, NY

Relevant Coursework

- Object-Oriented Programming (Java, JavaScript)
- Computer Architecture
- Operating Systems (Linux Kernel Development)
- Linear Algebra
- Probability and Random Processes
- Data Structure and Algorithm

Projects

HireFlow – AI Job Tracker (MVP) | *Next.js, Supabase (Postgres), Tailwind CSS*

hire-flow-orpin.vercel.app

2025

- Developed a full-stack job tracking platform with **role-based authentication** (User/Employer) using Supabase, ensuring secure and scalable access control.
- Built interactive dashboards with job search, saved jobs, and application tracking, **streamlining how users organize job applications across sessions**.
- Designed and deployed a responsive UI with Tailwind CSS, delivering **mobile-friendly accessibility and improved user experience**.

Local Hardware Store – E-Commerce Platform | *Next.js, Firebase, Node.js, Tailwind CSS*

re-hardware-store.vercel.app

2025

- Led a team of developers as project lead, **assigning tasks, managing GitHub workflows, and overseeing sprint planning**.
- Implemented core e-commerce functionality including **product catalog, category filters, and shopping cart with persistent state**.
- Delivered a modern, responsive UI with Tailwind CSS, enhancing the **customer shopping experience across desktop and mobile**.

Movie Explorer | *React, Appwrite, JavaScript (ES6), Tailwind CSS*

2025

- Developed a movie discovery platform supporting **500k+ searchable titles**, powered by a React frontend and Appwrite backend.
- Optimized performance with debounced search and responsive design, **reducing API requests by 40% while improving usability**.

Technical Skills

Languages: JavaScript (ES6+), Java (OOP, JavaFX), HTML, CSS

Frameworks/Libraries: Next.js (App Router, API Routes), React, Tailwind CSS, JavaFX

Databases/Backend: PostgreSQL, Supabase, Firebase, Prisma (basic)

Developer Tools: VS Code, Eclipse, Git, GitHub, Linux (Shell, Kernel Basics), pgAdmin

Deployment: Vercel

Leadership / Extracurricular

- Took initiative in self-directed learning, completing projects such as **HireFlow (AI Job Tracker), Movie-app with SEO, and To-Do App** to strengthen software development skills.
- Applied full-stack development with Next.js, PostgreSQL, Supabase, and Tailwind CSS to build scalable, deployable web applications.
- Earned a **Version Control Certification (Meta)** to improve collaborative development and Git/GitHub best practices.
